All In One Day

Mis-Teeq

Wake up early, wipe the sleep from my eyes
Glance across the room, it's 8:45
Can't forget to hang the washing out to dry
Pick out my clothes so I can hit 'em with my styleWash up my face and brighten up my smile
Fix up my hair, add some sheen so I can shine
Look at my watch, it's saying 10:45
Grab me some breakfast, time to jump in my rideMy family is callin'
I've been on the move since mornin'
Tryin' to fit it all in
Wish I could add me some more hours to the day, I gottaCheck my mum and make sure she's okay
All in one day
Cook and clean 'cos nothing seems to change
It's everydayGet my nails done, take a trip to Spain
Back the same day
Text my friends and drink some chilled Ros
All in one dayOn the move we keep it going, no time to lose
And we're just tryin' to keep the day running smooth
Who says that we can't have our cake and eat it too?Been to the gym and now I'm feeling energized
I had to exercise to tone up my thighs
Now got to pay my bills, they're on the red line
Gotta rush myself to the meter now before I get a fineWent to my mum and now she's cooking the dinner
I got to wait for the chicken to simmer
Rice and peas with some sweet plantine
Go grab your coat, let's go shopping in SpainAs we listen to the man sing 'Andala'
We roll down the street straight to the bay
Buy what we can buy and head back to the plane
'Cos we've only got one day toCheck my mum and make sure she's okay
All in one day
Cook and clean 'cos nothing seems to change
It's everydayGet my nails done, take a trip to Spain
Back the same day
Text my friends and drink some chilled Ros
All in one dayOn the move we keep on going, no time to lose
And we're just tryin' to keep the day running smooth
Who says that we can't have our cake and eat it too?All my girls shout
Let me see my sisters who go all out
Freshly dipped in caramel tans with the back out
When we do it right you know it's gonna last all nightWhen we get together know it's gonna be all high
And we don't need no fellas to spoil out vibe

And we gon' keep it rockin' till the mornin' light
And we gon' keep it poppin' till the
Damn, I forgot to call my manBaby, I'm sorry I'm late
Gon' make it up to you
When you get home you just wait
Let me make it up to youBubble bath runs down my body end of the day
Candle light upon my window pane sounds like the rain
No telephone, turn off the lights, let's get it on
There's no one here but you and I
Goodnight my love, goodnight
