

# White Moon

## Beach House

Down the hill I looked so fast  
Feel the moon, it doesn't last  
Troubled boy and lucky girl  
Bring me back into your world  
Call your name when you are gone  
Longest night before the dawn  
Hard to catch this side of you  
Do you want me two on two?  
White moon beam on my back  
White moon beam on my back  
White moon beam on my back  
White moon beam on my back  
Feel inside, it's part of you  
An animal that is confused  
Hard to catch this side of you  
Do you want me to want you?  
Give you half but you want more  
Bring me back into your world  
Feel inside, it's part of you  
An animal that is confused  
White moon beam on my back  
White moon beam on my back  
White moon beam on my back  
White moon beam on my back  
Shadow in the night  
I cannot promise you  
No one knows where we don't go  
They never do  
Sing to me goodbyes  
The night, a soft disguise  
The debt is not due  
The debt is not due  
Shadow in the night  
I cannot promise you  
No one knows where we don't go  
They never do  
Sing to me goodbyes  
The night, a soft disguise  
The debt is not due  
The debt is not due  
Shifting dreams, not what it seems  
It never is  
The sun will always rise  
It says, it promises  
Shifting dreams, not what it seems  
It's never true  
No one knows where we will go  
They never do
