

Salvation Plan

Adore Me Not

All the never ending stories
Stuck in your head
Calling out for someone
to replace what you've heard
All those distant, pretty faces
Fucked up and dead But now it's gone! You've come to see it all
There's no place left to fall
Begin to break it up
I never want it all
Blurry visions, so confusing
Fucked up and mad
Searching for the truth is what I wanted so bad
What I wanted so bad It's gone! You've come to see it all
There's no place left to fall
Begin to break it up
I never want it This is my salvation plan
I'll be up and about again
Let's get lost and drink the night away
This is my salvation plan
I'll be up and about again
Let's get lost and drink the night away But now it's gone! You've come to see it all
There's no place left to fall
Begin to break it up
I never want it
(this is my salvation plan)
You've come to see it all
There's no place left to fall
(this is my salvation plan)
Begin to break it up
I never want it This is my salvation plan
I'll be up and about again
Let's get lost and drink the night away
This is my salvation plan
I'll be up and about again
Let's get lost and drink the night away
