

# Can't Stop The Rain

## Air Supply

(graham russell/guy allison)  
When we believe our reality  
In the words that we say  
We're all searching for sanity  
Till it drives us away  
To that place in the wilderness  
In the deep of your mind  
You remember the happiness  
Wasn't easy to find  
Why do we spend time alone  
Why don't we end nights together  
Isn't it time to come home

(chorus)  
I can't stop the rain from falling  
Do what you must do  
I can only hope to share  
The pain I gave to you  
Gave to you  
We can climb to another world  
If we never look down  
We can join in the avalanche  
And be thrown to the ground  
If I'm still a part of your life  
Come lay your head on my pillow  
And tell me to hold you tonight  
(chorus)
