Once Upon A Broken Heart

Beu Sisters

Once upon a broken heart
I was walking alone in the dark
Looking for a way to start again
What I wouldn't give for a friendThere was no love in my life
There was no light in my eyes
All the tears that I had cried and cried
Seemed like they'd never endAnd I never believed fairy tales came true
But now I know that they really do
Now that I found you and now that I'm here with you
Just look at the sunshine in youShowed me a world I'd never seen
I woke up and fell into this dream
Happily ever, after just took time
Once upon this broken heart of mineLong ago and far away
I could never dream of the day
That your love would come my way and stay
And sweep me awayAnd I never believed fairy tales came true
But now I know that they really do
Now that I found you and now that I'm here with you
Just look at the sunshine in youShowed me a world, I'd never seen
I woke up and fell into this dream
Happily ever, after just took time
Once upon this broken heart of mineThis is a way a fairy tale feels
This is the way I know it's real
'Cause this is the way a broken heart heals, yeahAnd I never believed fairy tales came true
But now I know that they really do
Now that I found you and now that I'm here with you
Just look at the sunshine in youShowed me a world I'd never seen
I woke up and fell into this dream
Happily ever, after just took time
Once upon this broken heart of mine
