

River Rain

[Pedro Gabriel Amaral](#)

Let the river rain
Pour above your face
It controls your pace
If it's the right place
Show me with your grace
I have been alone today
The most silent day I want you to come
Cause I am on my own
I want you to be
Everything I need
When I'm in love Let a stingy ray
Touch your hand and prey
I wanna be whole someday
Use your marine scent
Resembling your embrace
Wanna know the name of the scent
Just the fucking name Wanna smell your perfume
