

Mentally Aborted

Caedere

Mentally aborted, put in a body-bag.

Infestation to abhor - to abhor.

Mentally aborted, gore on the deathrow.

Contamination to expose - to expose. Guttural wise, dumb infamize. Deport all the mime. Totally ignore the selfish ignorance.

Force the ravish with forge.

It's all the same. Drilled the dumb, but who's to blame.

Treat them like the way they wanted to be treated,
they wanted to be treated. Immunisation of the young -
of the young, old, deaf and blind.

It's all the same. Drilled the dumb, but who's to blame.

Treat them like the way they wanted to be treated. Fierce to be the fiend.

Fierce to be the fiend. Cadaver beaten up to obedience.

Into rotten carcass splashed pulp.

Necroticism usurps the nothing - the nothing.

Exile the thrusting womb to burst.

Through the suffering to burst... Rise to see the mentally aborted.

Face your fear cause it is your own shade.

Slaves of society, fucked up as it can be. No mind, sight blind.

No mind, bind fright. Demise to stitch the faeces in their face. Mentally aborted, put in a body-bag.

Infestation to abhor - to abhor.

Mentally aborted, minds of the amputated.

Infestation to explore - to explore. Consummate. Death-roll rate. Deport all the mime. It's all the same. Drilled the dumb, but who's to blame.

Treat them like the way they wanted to be treated.

Totally ignore the selfish ignorance.

Force the ravish with forge - with forge.
