Big Guap

734smg

Welcome to that station getting that interplanetary
Intercontinental space fucking age atmosphere
Third eye open my body aligned feet all on the ground
And you know i'm feeling fine ten toes down
What the fuck you trying to do you got some funds
Yeah i need that big guap too
Big guap too need that big guap too
Big guap too need that big guap too
No face tattoo blend into a crowd
I get my money and then i dip the fuck out
You aint seeing me never seeing smg
Never see me creeping in the evening through my territory
Territory territory yeah i got some property
Got my bitches telling me they foreseeing my prophecy
Yes we know they See me and 42 clouds with guap you see
We been doing our things on the daily on the grind you see
Dodging them felonies n i ride out like jitneys
You know that cocaine like whitney
You know that heron the mobbington
You know we be doing shit we be fighting n squabbling them
These motherfuckers talking they be talking that shit again
I guess i'm that other shit adhd the ritalin
But i aint riddling if you see the clear picture man
I don't need no frame up cause i'm living my fucking life
Don't put me at no disposition i might just kill your wife
Might just just kill your pets might just just make ya wet
I just be chilling you know i'm like a street war vet
I just be sitting back n i'm doing what i needed to
Motherfuckers saying that they rappers i'm not believing you
Motherfuckers saying they aint doing what they wanna
While i'm smoking marijuana on my damn shift
Ride or die myself 333 in the abyss
Being a vamp at night late nights
Just driving around waiting for that homicide
Someone come kill me and take all my shit
Or police pull me over and cage me and shit
But they don't so i just keep grinding and
I keep squabbling and i i'm just so high that psilocybin
Mushrooms the thc and codiene

The big guap pharmacy big guap prophecy
Getting goddamn money and you stack it
To the goddamn ceiling racks bitch
Yeah you know we gotta get the cheddar cheese with it
Gotta get the goddamn guap let it happen
Whoop i aint even kidnapping unless the price be right
I guess id rather commit homicide and take a life
I guess its premeditated when its a murder
But otherwise its a manslaughter
With the best time for all of us
Serve some we be doing what we need to when we living shit
Code of Hammurabi cutting off the human fingertips
Pulling teeth wrap their bodies in the plastic dump em g
Dumpsters they be getting picked up by the fucking city sweeps
And i guess i'm living yes i'm living like a wartime chief
Yes indeed get my big guap smokey rest in peace
