

Anchor

Alejandro Escovedo

Ive always loved your love
In and out Up and down
If your love is a ship
I pull your anchor and I Christen it Im in love with love
(Im in love)
And it broke me in two
(in two)
Im in love with love
Look out baby, Its gonna break you too Id pull your ship across the ocean wide
Hold my breath
And dive dive dive
If they held me at the bottom
Then asked me why
Id open my mouth and Id tell em why cause Im in love with love
(Im in love)
And it broke me in two
(in two)
Im in love with love
So look out baby, Its gonna break you too Were huddled up on benches
Were saying our prayers
Two lovers in the mist
With the salt in their hair Im in love Im in love
And it broke me in two
Im in love Im in love
Its gonna break you too
Yes it will The waves are breaking in a foreign tongue
Understand but Im feeling numb.
If your love was a ship
Id pull your anchor and hang on to it Im in love with love
(Im in love)
And it broke me in two
(in two)
Im in love with love
So look out baby
Its gonna break you too Im in love with love
(Im in love)
And it broke me in two
(In two)
Im in love with love

So look out baby
Its gonna break you tooOh Im feelin love
Im feeling the love babe
Yeah, Im feeling love
