

# Next Move (feat. Robin Thicke)

[Keyshia Cole](#)

We keep on fighting, going back and forth  
Whos the first to call? Whos the first to fall in love?  
We hide emotions, Whos keeping score?  
And you dont want the ball in my court, I dont want the ball in yours  
Yes, were hiding everything we feel  
Somethings there, we both know the deal yea  
I know you've been thinking bout me just as much as Ive been thinking bout you  
My girls say fight it, let him come to you  
Now Im waiting (Now Im waiting)  
Anticipating (Anticipating)  
Whos gonna get this  
Can you tell me whos gonna make the next move?  
The next move, the next move  
Whos gonna make the next move, the next move?  
Is it gonna be me or is it gonna be you  
I hate the fact, we never aid those words  
So I can even trip when you wanna act brand new  
But I still get mad when you walk up the room  
But the truth is: Im not the only one loving you  
Yes, were hiding everything we feel  
Cause we both care and we both know the deal  
I know hes thinking bout me just like I've been thinking bout him  
But we keep on fighting, whos gonna win?  
Now Im waiting (Now Im waiting)  
Anticipating (Anticipating)  
Whos gonna get this  
Can you tell me whos gonna make the next move?  
The next move, the next move  
Whos gonna make the next move, the next move?  
Is it gonna be me or is it gonna be you  
I have to decide  
Will I be just like the next one?  
When I know that Im the best one for you  
Cant you see that I, I just want you for my man  
Cause I doubt that she can love you like I can  
See, youre all I want  
So I dont understand why you dont wanna only be with me  
Baby, baby, why dont you wanna be with me?  
Whos gonna make the next move?  
The next move, the next move  
Whos gonna make the next move?  
The next move, the next move  
Whos gonna make the next move?  
The next move, the next move  
Whos gonna make the next move?  
The next move, the next move

(Gonna be you) Why dont you wanna be with me?  
Youre all I want
