

# Fighting For Love

[Tamika Dunning](#)

When we first met  
I knew right from the start  
That you were the one  
Who could have my heart  
We made a vow to stay together  
Whatever came our way  
To never stray, be faithful  
But here we are today  
Chorus  
Fighting for love tooth and nail  
Fighting for love yes I can tell  
How much you love me and  
You know I love you too  
Fighting for love me and you  
You said it's done  
Said it's all in the past  
That I'm the one  
Said we can make this thing last  
How can I trust, oh I trusted once  
Now look at this pain  
How can I know that you're for real  
I can't take this pain again  
Chorus  
Fighting for love tooth and nail  
Fighting for love yes I can tell  
How much you love me and  
You know I love you too  
Fighting for love me and you  
We got to fight, come on now it's worth it right  
So much to lose, so we gotta choose  
to fight for our love  
Put on the gloves, step into the ring  
This love we have it means everything  
to me  
We can't just let it slip away,  
so we gotta fight for our love
