Favorite Girl

Marques Houston

Yeah, yeah, I've been in 9s and 10s, some come around again
I've seen a dime or two, they don't compare to you
So many things I like, too many to even name
I wanna be your man, I hope you feel the sameBaby, all I wanna do is hold you
And show you how much I adore you, want you, need you
Baby, you're, you're my favorite girl
Baby, you're the only one, I wanna give you the worldYeah, you're, you're my favorite girl
You really, really got it going on
Everything that a man could want
You're my favorite girl, hmm
You're my favorite girl, hmm, hmmGirl, no more playing games, I'm done with other dames
I figure, what's the use, there's really no excuse
Many good qualities, I can't think of one complaint
That's why you're number one and other, others ain't, loveBaby, all I wanna do is hold you
And show you how much I adore you, want you, need you
Baby, you're, you're my favorite girl
Baby, you're the only one, I wanna give you the worldYes, you're, you're my favorite girl
You really, really got it going on
Everything that a man could want
You're my favorite girlYou're everything that a man like me could ever want
Give me what I need and nothing that I don't
And girl, I promise I will always have your back
You're all I needYou're, you're my favorite girl
Baby, you're the only one
Yeah, you're you're my favorite girl
You really, really got it going on
You're my favorite girlYou're my favorite girl
Baby, you're the only one
Yeah, you're my favorite girl
You really, really got it going on
You're my favorite girlYou're my favorite girl
You're my favorite girl
You're my favorite
