

Kissin' Ears (feat. The-Dream)

Gym Class Heroes

Baby girl, we ain't gotta move too fast
First and foremost I'm a gentlemen with class
Not the least bit concerned with what happened in your past
And I'm sure your heart's hurtin' but the pain won't last I can be your aspirin, I'm asking friendly
We can start you off with a daily dose of vitamin me
Yeah, I got jokes, you laughing at them tho'
Now go on and grab your coat
And tell your girls that you leavin' them Show me, baby, what you got
Show me, baby, your favorite spot
And I can take you out of here
I can put your love in the atmosphere Show me what you want and I got that
Tell me what you need and you got that
I wanna make her press that ass on me
Before we get to that (And it starts with kissin' ears)
Makin' babies, buy you a Mercedes, girl
(And it starts with kissin' ears)
Gettin' married, bein' willin' to share it, girl, you know that
(It starts with kissin' ears) Get to know me pickin' up groceries, girl
(It starts with kissin' ears)
Payin' the bills, keepin' it real, baby girl
(It starts with kissin' ears) It starts with kissin' ears
It starts with kissin' ears
Now let me kiss you on your hot spot Far be it for me to kiss you on the first date
But our lips are like legos and it's getting kinda late
You don't gotta eat the bait all I want is a chance
The fish are gettin' nervous 'cause the pond is drying fast You lying if you say that I'm the type of guy you're
used to
Hilltop suite in Saint Lusha, expose your ear so I could kiss you
Or maybe just whisper something real manish
Bet, you didn't know I knew Spanish, did you? Tell me what you want and I got that
Tell me what you need and you got that
Say the word it's over secure you like a soldier
Before we get to that (It starts with kissin' ears)
Makin' babies, buy you a Mercedes, girl
(And it starts with kissin' ears)
Gettin' married, bein' willin' to share it, girl
(It all starts with kissin' ears) Get to know me pickin' up groceries, girl
(It starts with kissin' ears)
Payin' the bills, keepin' it real, baby girl

(It starts with kissin' ears)It starts with kissin' ears
It starts with kissin' ears
Now let me kiss you on your hot spotAll night long
Can you sing my song?
We can start right here
Sex starts with kissin' earsShow me what you want and I got that
(Kissin' ears)
You know I got that
(Kissin' ears)
Yeah, you know I got that
Them other dudes, please you know I'm not that(And it starts with kissin' ears)
Makin' babies, buy you a mercedes, girl
(And it starts with kissin' ears)
Gettin' married, bein' willin' to share it, girl, you know that
(It starts with kissin' ears)Get to know me pickin' up groceries, girl
(It starts with kissin' ears)
Payin' the bills, keepin' it real
Baby girl, it starts with kissin' earsIt starts with kissin' ears
It starts with kissin' ears
Now let me kiss you on your hot spotShow me what you want and I got that
Tell me what you need and you got that
Say the word it's over, secure you like a soldier
Before we get to that, it starts with kissin' earsShow me what you want and I got that
You know I got that, yeah, you know I got that
Them other dudes, please you know I'm not that
