

Natural Thing

Lauren Harris

Well, the flower was made for beauty
And the bee was made to sting
 All around this world
 Honey, it's a natural thing
It can shake the high and mighty
Bring a strong man to his knees
 All around this world
 Honey, it's a natural thing
An? a man gets up in the mornin?
He got to find that tiger to tame
 All around this world
 You know it's a natural thing
But a man alone ain?t nothin?
 Every Tarzan needs a Jane
 All around this world
 Honey, it's a natural thing
 Well, we got it

Well, the little girl?s lookin? so pretty
They make a poor man feel like a king
 All around this world
 Honey, it's a natural thing
It drive a man to cross the desert
Or risk his life on a stormy sea
 All around this world
 Yeah, it's a natural thing
 Oh yeah
Well, the flower was made for beauty
And the bee was made to sting
 All around this world
 Honey, it's a natural thing
 All around this world
 Honey, it's a natural thing
Who, what to do me, what, yeah
