

Haunted (By Your Love)

Blue Magic

I'm haunted by your love
Never felt this way before
I'm haunted by your love, love

I never thought I could find
someone like you
You stay on my mind
You're always there constantly
I'm under your spell until eternity

I'm haunted by your love
Never felt this way before
I'm haunted by your love, love

You've got me walking on air
People they stare but girl, I don't
care cause on the moon or here
on earth there's nothing that can
compare to what you're worth
I'm haunted by your love
I'm haunted by your love
I'm haunted by your love, love

I'm haunted by your love
Never felt this way before
I'm haunted by your love
Do I stand a ghost of a chance
I'm haunted by your love
Oh, mmmm baby, in this sweet romance
I'm haunted never felt this way before
Im haunted baby, I'm so haunted baby
Mmmm can't you see, can't you see
