

Epiphany

Freddy Hayler

I see you now shekinah all around you,
Adoring angels praise you, before your throne
And I see glory, glory in the highest

And an emerald rainbow round the throne of God
And a crystal rivers now flowing from Your presence
With your loving healing for all the nations

Eyes are liquid flame of love
The holy lamp shines brighter than a million angels around,
And I lift my praise for Him, when I will shout for joy
For I have seen His glory, His glory, His glory!!!!

My prayers for all of you to know Him,
Oh to really love Him and to sing God's praises,
To worship and to see God's glory
Come on and lift your hands high like Michael in the sky
And bow down before His holy presence
And if you really listen you'll hear his angel's song

And He'll cause your mind to see
And what appears to be the angels singing to him
And you will know your epiphany is yours
And we will shout for joy for we have touched His glory, His glory

Lift your hands and revere your King
And sing and dance for joy
For we have touched the Glory of a mighty God, mighty God
