

# Stormy Weather

## Tokio Hotel

The end of our zone  
Undetected, alone  
Sometime at night  
I see people cry their goodbyes  
Into hypnotic skies I can't breathe in, can't breathe out  
'Cause the air is fading  
We can't breath in, can't breathe out  
We are suffocating  
Our frozen hearts are burning holes into eternity  
This life is bittersweet we're giving in so automatically  
Move with the flow  
Just let go  
I'll meet you where we don't know  
It's comin' up, comin' up everywhere It is a stormy weather  
Weather, weather  
Stormy weather  
It is a stormy weather  
Weather, weather  
Stormy weather  
And I'll be always searchin' for you Remember the sun  
Feel the heat  
The end and how it begun  
One more wish  
One more stop  
One last touch  
Before we hide and run I can't breathe in, can't breathe out  
'Cause the air is fading  
We can't breath in, can't breathe out  
We are suffocating  
Our frozen hearts are burning holes into eternity  
This life is bittersweet  
We're giving in so automatically  
So beautiful quiet I wake up  
Ready to enter the light  
It's takin' us, takin' us anywhere It is a stormy weather

It is a stormy weather  
It is a stormy weather  
It is a stormy weather  
It is a stormy weather  
Weather, weather  
Stormy weather  
It is a stormy weather  
Weather, weather  
Stormy weather  
And I'll be always searchin' for youIt's comin' up everywhere  
It's takin' us anywhere  
It's comin' up everywhere  
It's takin' us anywhereIt is a stormy weather  
It is a stormy weather  
And I'll be always searchin' for you
