

Something's Gotta Give

[Tim Stop](#)

Tonight is the night, I can feel it though I don't know what it is
We've been playing this game so long, something's gotta give
Wherever you go in the room, I know exactly where you are
Oh I'm just praying you don't wander off too far. Dance with me, dance with me
it's our chance to see what this romance could be
take my hand and dance with me
baby won't you dance with me
cuz I feel so free when you're next to me The way that you touch me is unlike any touch I've felt before
and the way that you move in close, knocks me to the floor
the look in your eyes and the scent and the taste of your skin
ooh i'm in love, and I don't know where to begin
so how bout you Dance with me, dance with me
it's our chance to see what this romance could be
take my hand and dance with me
baby won't you dance with me
cuz I feel so free when you're next to me Oh and this feeling, love, is everything to me
dancing right here with you is all i want to be
but before the night is over give me a sign you want me to
that's all I need... Oh it's so hard for me to be absolutely sure
but the way that i know is the way that I feel when you dance...
