Undeniable

A Sides

Now that we're a family, I can feel it from all sides
We live to do or die we're all the same
There's nothing you can't tell us
And every single time, you step you're gonna have a price to pay
Now that we've gone this far I'm told I've gone too far
That's not true
Before I go away I guess I'll throw away
The time I had spent with you
Don't you come around me, it's like planning suicide
And once it starts it'll never be the same
Oh I guess it's severed ties now, no more hanging for the ride
All the shit I went through when we parted ways
Now that we've gone this far I'm told I've gone too far
That's not true
Before I go away I guess I'll throw away
The time I had spent with you
You won't forget about me 'cause I'm someone you can't deny
Forget about, don't think about, I'm just so sorry it's true
You won't forget about me 'cause I'm someone you can't deny
Forget about, don't think about with all your prejudice ways
[Incomprehensible]Try not to make a sound now, try not to be afraid
This totally fuckin' hurts me, does it you?
I've been running down this alley, seems like a million fuckin' time
Will I ever find my way out of this maze?
Now that we've gone this far I'm told I've gone too far
That's not true
Before I go away I guess I'll throw away
The time I had spent with you
You won't forget about me 'cause I'm someone you can't deny
Forget about, don't think about, I'm just so sorry it's true
You won't forget about me 'cause I'm someone you can't deny
Forget about, don't think about, I'm just so sorry it's true
You won't forget about me 'cause I'm someone you can't deny
I'm just so sorry it's true
You won't forget about me 'cause I'm someone you can't deny
Forget about, don't think about with all your prejudice ways
