Homunculus

Area 11

Balanced equation
Somethinv gained, something lost
It cost it me an arm and a leg
But I won't lose you at any cost

As we abandon hope of comprehension
I can see something
Appear in the sulphur
Lines on the ground carry righteous intension
Hoping to god
That the theories hold up

I watched you slip away
As all our dreams turned into dust
It's such a price to pay
Exchanging flesh for steel and rust
We stood and watched as the flames embraced
All we left behind, erased
And I'm lost for words to say

Now I freeze; paralyzed
Terrified of what I'd find
In the shadows I hear the cry
Transmutation; homunculi

Now I freeze; paralyzed
Terrified of what I'd find
In the shadows I hear the cry
Transmutation; homunculi

Do you feel?

Lust and pride and gluttony
Envy Wrath and Sloth and Greed

Lust and pride and gluttony
Envy Wrath and Sloth and Greed

Humans are just weaknesses
That's what you believe

Now I have come to realize
That's simply jealously

Now I freeze; paralyzed
Terrified of what I'd find
In the shadows I hear the cry
Transmutation; homunculi

Now I freeze; paralyzed
Terrified of what I'd find
In the shadows I hear the cry
Transmutation; homunculi

Do you feel?
Do you feel?

I watched you slip away
As all our dreams turned into dust
It's such a price to pay
Exchanging flesh for steel and rust
We stood and watched as the flames embraced
All we left behind, erased
And I'm lost for words to say

Now I freeze; paralyzed
Terrified of what I'd find
In the shadows I hear the cry
Transmutation; homunculi

Now I freeze; paralyzed
Terrified of what I'd find
In the shadows I hear the cry
Transmutation; homunculi

Do you feel?
Do you feel?
