Cat Girl Tights

Cinerama

I could hardly believe I was hearing your voice at first
It's been such a long time; I was starting to fear the worst
And in your last letter you talked about meeting some strange new men
I began to think I might never see you again
So now I feel so much better
I have missed you so much I don't think a single day's gone by
When I've not thought about you
And how we spent those winter nights just sat by the fire, you in your 'cat girl' tights
And we talked forever about the things you were going to do
And I was so sure that, when all your dreams came true, we'd still be together
You moved away; I didn't mind because I'm not one of the things that you've left behind
Tell me it's true
I have missed you so much I don't think a single day's gone by
When I've not thought about you
You moved away; I didn't mind because I'm not one of the things that you've left behind
Tell me it's true
