

# Looking Down

[Dekoy](#)

Yeah, my shadow stretches far and free  
Yeah, it's telling me what I could be  
Could be 'Cause I'm tired, of looking up  
All the time We'll stand on top of the world  
Looking down  
We'll stand on top of the world  
Looking down Yeah, we'll set ourselves apart in time  
Yeah, and then we'll leave it all behind  
I'll rise 'Cause I'm tired, of looking out  
For the line We'll stand on top of the world  
Looking down  
We'll stand on top of the world  
Looking down We'll stand on top of the world Yeah, is anybody here like me?  
Yeah, can you face the sound  
And decide? We'll stand on top of the world  
Looking down  
We'll stand on top of the world  
Looking down We'll stand on top of the world  
Looking down  
To rise above on our own  
Looking down
