

Shine

Ben Lee

Ocean sea floor
See less, be more
I've been waiting for you
With a teenage head
Where you been? And the trouble you've bought
If you slow down now
Then you're gonna get caught I've been waiting for you
Darkness before
Charlie Brando With a teenage head
If you slow down now
Where you been?
And the trouble you turn
Then you're gonna get burned All I wanted was to live on my blind side
Every shadow's like another bad dream
Move fast and Mister dim those headlights
Don't let 'em shine in front of me
Silent swallow I'm still praying for you
Darkness shadow
Where you been? With a teenage head
And the trouble you turn Then you're gonna get burned
If you slow down now
All I wanted was to live on my blind side
Every shadow's like another bad dream
Don't let 'em shine in front of
Move fast and Mister dim those headlights
All I wanted was to live on my blind side
Every shadow's like another bad dream
Move fast and Mister dim those headlights
With a teenage head
Don't let 'em shine in front of me If you slow down now
And the trouble you've bought
Then you're gonna get caught
Every shadow's like another bad dream
All I wanted was to live on my blind side
Move fast and Mister dim those headlights
Don't let 'em shine in front of
Don't let 'em shine in front of me Don't let 'em shine in front of
