One False Move

Reckless Kelly

Is this what it comes down to
Hit or miss, it?s either me or you
All you get is one false move
My friend you're gonna have to choose
Sink or swim, it's either win or lose
In the end there?s only one false move
At first glance we?re still in this game
There?s a desperate chance that hope may still remain
Until we come to see the error of our ways
We?re just one false move away
It?s the cost of our endless needs
Idle thoughts and wicked deeds
Leave me lost with nothing to believe
Foolish pride wouldn?t let you leave if you tried
If I beg and plead and besides
There?s no honor among the thieves
At first glance we?re still in this game
There?s a desperate chance that hope may still remain
Until we come to see the error of our ways
We?re just one false move away
At first glance we?re still in this game
There?s a desperate chance that hope may still remain
Until we come to see the error of our ways
We?re just one false move away
We?re just one false move away
We?re just one false move away
