

I can feel love

Bosson

(I feel love)I couldn't believe, it happened to me
You knocked me away
So close to my heart, don't know who you are
So sudden but maybe too far
How could I believe it
Finding us here where we are
I still don't know who you areI can feel love, I can feel love in your eyes
I'm finding my way to your heart
I can feel love in my mind
And it doesn't matter whatever you're saying
In everything you show me I feel loveSo much I have seen, so far I have been
But never so close
So deep in my soul, so much I've been told
That love is a heartbreaking game
How can I believe it
Finding us here where we are
I've never been so farI can feel love.I can feel love in your eyes
I'm finding my way to your heart
I can feel love in my mind
And it doesn't matter whatever you're saying
In everything you show me I feel loveAnd I know deep in my heart
Nothing could ever bring me down
When you feel love, you know who you are
it's moving you on and onI can feel love.I can feel love in your eyes
I'm finding my way to your heart
I can feel love in my mind
And it doesn't matter whatever you're saying
In everything you show me I feel love
