Little L

Jamiroquai

There you were freaking out Trying to get your head around The fact that me and you and love is dead See how I'm trippin' out 'Cause you can't decide what you really want from meWhy does it have to be like this? I can never tell 'Cause you make me love you, love you, baby With a little LThere you were shouting out Cranking up your altercations, getting upset in your desperation Screaming and hollering How could this love become so paper thin?You're playing so hard to get You're making me sweat just to hold your attention I can't give you nothing more If you ain't givin' nothing to meDon't you know that You make me love you, love you, baby With a little L Why does it have to be like this? I can never tellSeems like you're stepping on the pieces of my broken shell 'Cause you make me love you, love you With a little L, you know That's the way you make me love you, yeahWhy does it have to be like this? I can never tell You make me love you, love you, baby With a little LWhy does it have to be like this? I can never tell You make me love you, love you, baby With a little LWhy does it have to be like this? I can never tell You make me love you, love you, baby With a little LWhy does it have to be like this? I can never tell You make me love you, love you, baby With a little LWhy does it have to be like this? I can never tell You make me love you, love you, baby With a little LWhy does it have to be like this? I can never tell You make me love you, love you, baby With a little LWhy does it have to be like this?

I can never tell You make me love you, love you, baby With a little L
