

Tell Me Yours

Propaganda

...I didn't earn them
...would you say thanks you for proper uses?
Who made sure the bar was safe and ...
The other black family and Melinda
I'm speakin' hard that's why I even like rap
Thank the foundation
The RI, the hardest ...I've ever been through
Family introduced me to the gossip
...he was the first one to put a spark in my hand
I should have expanded it
That's why my artist is ambidextrous
...came to get me when I was at U.S. History
Tryin' to keep up with ...
He told me he thought God made black people by ...
.for turning down my advances
LOL, I wouldn't have met me either
I was outside these box teachers
Who knew kids could learn
I witnessed trouble banning these kids
I was there when your pop died
And I still .Mason, Bianca
Nick, Nirvana and Rafael
These kids made a few
For at least two albums
Thank the blow, the mic and dim lights
Up the streets round the corner
Where my heart was best kept
Think best kept and she ...
I love poetry and it encourages me to go after
...who told me to try my hand to poetry
Hey, how are we doin'?
Where taboo with the Black Eyed Peas
Accidentally kicked me in the tooth... that's why it's chipped to this day
...James, Janice, Nicole and Thomas Joseph Terry
These deserve your thanks
If you see them, tell them I sent you
I didn't know then, but I know now
What I cannot ignore is my Crimson Cord
Don't tell me yours, tell me yours, tell me yours

Tell me yours, tell me yours
Tell me yours, tell me yours
Tell me yours, tell me yours
Tell me your, tell me yours
