

# Tulips

## Falcatross

When you said tulips  
I knew that you're mine  
When I caught you there  
Crying in the night  
Wearing my jacket  
Wearing that smile  
I knew that I'd found you Were you unawares?  
Did it catch you out?  
Or did it break you in  
Right from the start?  
It's as pure as fire  
It's as pure as snow  
I knew that I'd found you This could be an opportunity  
This could be an opportunity If you promise to let it  
If you promise to let it grow  
If you promise to let it  
If you promise to let it grow 'Cos you're the one I love  
'Cos you're the one I love  
'Cos you're the one I love  
'Cos you're the one I love 'Cos you're the one I love  
'Cos you're the one I love  
'Cos you're the one I love  
'Cos you're the one I love 'Cos you're the one I love  
'Cos you're the one I love  
'Cos you're the one I love  
'Cos you're the one I love
