What's Real

WATERS

I've been dreaming
Of what's real
I've been dreaming
Just to feelI could stay the night
And call this town I'm in my home
But in the morning I will goI've been stuck with the same kind of people
Just blind and drunk
We can never see what's real
See what's realI've been trapped in all kinds of places
Get me away
So I can find what's real
Find what's realI've been awaken
I can see
I've been awaken
I can feelI could stay the night
And call this town I'm in my home
But in the morning I will goI've been stuck with the same kind of people
Just blind and drunk
We can never see what's real
See what's real
