

# Undeniable

[LeAnn Rimes](#)

Being here together is like dreaming wide awake  
Once you've found perfection, you know it's no mistake  
Too many times I've tried too hard to make love become real  
You showed me how my life can change when love is meant to be  
It's undeniable  
Your love is undeniable  
It's undeniable  
True love is undeniable  
It's undeniable  
You can change direction, you can change your mind  
Cold sky and close your eyes but the sun's still gonna shine  
'Cause when the magic comes your way and you say it isn't real, yeah  
There's no use to try to lie about the way you make me feel  
It's undeniable  
Your love is undeniable  
It's undeniable  
True love is undeniable  
It's undeniable  
I can't turn it down  
No one else can turn it around  
It's the truest thing I've ever found  
It's undeniable  
Your love is undeniable  
It's undeniable  
True love is undeniable  
It's undeniable  
Your love is undeniable  
It's undeniable  
True love is undeniable  
It's undeniable
