Say You Will

Mercutio

Say you miss me
You can't wait to kiss me
And when you're away
The minutes crawl by every day
Say you love me
That you're thinking of me
And when you're around
My feet never stay on the ground

I'm not singing
'Cause my phone isn't ringing
So call me up, dear
I'll say anything you want to hear
Don't ignore me
Don't say that I'm boring
My loving is here
But who knows where I'll be next year

Say you will
Need me still
When the walls fall in around me

And when you held my hand
By the ice cream stand
And we stayed up all night
Bleary eyes filled with light
Yeah, I fell for you then

Say you're sorry
I don't have to worry
And I'll sing you a song
You were probably right all along
Say you need me
That you'll never treat me
So indifferently
Don't take these words lightly

Say you will
Need me still

When the walls fall in around me

Oh, say you will
Love me still
When I'm acting out
When we scream and shout
We're still a team
Ooh, ooh
