

# Adrift

## Lunatic Soul

I know we're passing by  
See the shadows of our own  
Apart from where we are  
We still believe  
And raise our hopes  
We're locked up alone  
Going nowhere  
Waiting for the dawn  
And just like shooting stars  
We sleep in flames  
Until we burn up  
Until we burn up  
How many times we live  
Poised between all heaven and earth  
How many times we die  
Trying for rebirth with a different mask  
No matter where we go  
Souls adrift never say goodbye
