

# The Hungry Saw

## Tindersticks

Mean smiles when the devil drives  
He's been driving the old way  
He's got a hungry saw  
He wants to tear it all up now A grind of speed and a one night stand  
Left my baby in the devil's hands  
He's got a hungry saw  
He wants to tear it all up now  
He's got a hungry saw First carve is the skin  
The second is the muscle  
There's a crack of the bone  
And he's at your heart  
Yeah, there's a crack of the bone  
(And he's at your heart) Hello darkness, my old friend  
It's time to jerk those tears again  
He works that saw so painlessly  
Those devil's hands  
Those devil's hands I know  
I feel them on my skin
