

Same Blood

The Academy Is...

Like a cold day in August
I was not prepared for this
You'd think that nobody noticed
The way that you still care about it
By all the people we'll need to love and hate
Everybody makes the same mistakes
Divided by these walls
Together we are lost
We are the same blood
All of us, we are, we are
While half of us were lost
The other half forgot
We are the same blood
We are the same blood
We are the same
You remind me of August
The way that I still care about
All the things that you promised
When I was still around
Pick you up and track you down
We are the same blood
All of us, we are, we are
While half of us were lost
The others half forgot
We are the same blood
We are the same blood
We are the same blood
We are the same
We are the same blood
All of us, we are, we are
We are the same blood
All of us, we are, we are
We are the same blood
Half of us were lost
The other half forgot
We are the same blood
We are the same blood
We are the same blood
We are the same blood
