Same Blood

The Academy Is...

Like a cold day in August

I was not prepared for this

You'd think that nobody noticed

The way that you still care about itBy all the people we'll need to love and hate

Everybody makes the same mistakes

Divided by these walls

Together we are lostWe are the same blood

All of us, we are, we are

While half of us were lost

The other half forgotWe are the same blood

We are the same blood

We are the same You remind me of August

The way that I still care about

All the things that you promised

When I was still around

Pick you up and track you downWe are the same blood

All of us, we are, we are

While half of us were lost

The others half forgotWe are the same blood

We are the same blood

We are the same blood

We are the sameWe are the same blood

All of us, we are, we are

We are the same blood

All of us, we are, we are

We are the same bloodHalf of us were lost

The other half forgotWe are the same blood

We are the same blood

We are the same blood

We are the same blood
