Where Did We Go Wrong

Incognito

It wasn't my intention to cause you this pain
But here we are, a bridge too far
I've left you here to wonder if it all was a game
How can it be, these changes in meNothing lasts forever, that is true
Take a look at the world that we once knew
Gone are the feelings that once we could hold on to, soTry to forgive me, find a way to believe me
I'm hurting the same way too
Oh I know it's not easy, but baby believe me
We've been fighting this war far too long
Where did we go wrong? Wrong, wrong
Where, where did we go wrong?I tried to write a letter, but it's better this way
Here in this place, face to face
Let's not forsake the future in view of the past
So little gained and far too much painTrying to compromise our points of view
We leave each other feeling blue
Gone are the feelings that once would have seen us throughTry to forgive me, find a way to believe me
I'm hurting the same way too
Oh I know it's not easy, but baby believe me
We've been fighting this war far too long
Where did we go wrong?
Tell me where did we go wrong
Oh no, where did we go wrongThe simple truth is clear to see
Time to surrender, let it be
There's nothing here for us to hold on toTry to forgive me, find a way to believe me
I'm hurting the same way too
Oh I know it's not easy, but baby believe me
We've been fighting this war far too longTry to forgive me, find a way to believe me
I'm hurting the same way too
Oh I know it's not easy, but baby believe me
We've been fighting, fighting, fighting far too long
Where did we go wrong? WhereWhere did we go wrong?
I wanna know where, I wanna know where
Where did we go wrong? Go wrong, go
Where did we go wrong?
I wanna know, where did we go wrong
Where did we go wrong? Ah yeah
Where did we go wrong?
Where did we go wrong?
