

From End to End

Relient K

Excuse me, but I've got a request
Could you take the gag off of my mouth?
I admit that I'm fairly impressed
'Cause you're the best at blocking me out I believe that we weren't quite done
I know it's hard to hear me out again
I realize, you're not the only one
Who's terrified of life from end to end Hey, hey, can you hear anything I say?
I'm feeling unwanted, that's not what I wanted
And attention to me is something you refuse to pay 'Cause I just can't believe the way
That this continues to go on
I say, I wish
You didn't always think I'm wrong So tell me, tell me what will it take
To get this through your head
And tell me what will it take
Until you see things through from end to end Excuse me, but isn't this the way
That things always turn into something good?
You've tried to ignore the things I say
But in the end you found you never could Hey, hey, can you hear anything I say?
You search for the shortcut, you live life but for what
I love you and hope you will find the truth some day 'Cause I just can't believe the way
That this continues to go on
I say, I wish
You didn't always think I'm wrong So tell me, tell me what will it take
To get this through your head
And tell me what will it take
Until you see things through from end to end So tell me, tell me what will it take
To get this through your head
And tell me what will it take
To get you on my good side again And tell me what will it take
To get this through your head
And tell me what will it take
To forget what you knew, just let him find you
And then you'll see things through from end to end
