Time Marches On

Letter Kills

I never said you meant that much to me
I cared a little but you wouldn't believe
I never would pay what you want me to
But now I can
And make this quick because I never got my fix
And I miss you
time marches on
Take me now
For all I am
No matter what I've said
Time marches on
Take me now
For all I am
No matter what I've said
Time marches on
I never meant to run when you came for me
I just got scared because I didn't believe
So catch me if you can, I'll be needing you to
And now you can
So make this quick because I never got my fix
And I miss you
But time marches on
Take me now
For all I am
No matter what I've said
Time marches on
Take me now
For all I am
No matter what I've said
And make this quick because I never got my fix
And I missed you
Time marches on
Take me now
For all I am
No matter what I said
Time marches on
Take me now
For all I am
No matter what I've said

Time marches on
