

# Late Night Dawning

**Bill Baird**

excuse me while I go insane  
or whatever they call it now  
i'll take the waters  
for as long as my lungs allow  
excuse me while I go insane  
love's a game I always lose  
I wear a moonlit face  
that the daytime has refused late night dawning  
early morning  
they say the darkest hour  
is the one where your eyes are closed  
punch my face bloody  
cut off all my hair  
my love is dead and I really couldn't care  
less shoot me to outer space  
my face will assume a darkened hex  
the man in the moon has changed  
his sex  
late night dawning  
early morning  
they say the darkest hour  
is the one where your eyes are closed
