

# Nothing Like You've Ever Known

Marti Webb

Nothing like you've ever known  
That's the life I thought that I was gonna show you  
    Lonely girls believe such things  
        That's one happy ever after that I owe you  
        Married man, always looking at your watch  
        I wanted to spend more time than 12 'til 2  
    Loving youAnd nothing like it should have been  
        Every time I think it's gonna be the last time  
            Each time I expect too much  
        Being wrong can get to be a painful pastimeSomething new  
            That is all it was, you know  
            But when you need someone  
                Any love will do  
                Sad but true  
            And nothing like we've ever known  
        That is how I thought all our tomorrows would be  
            I thought we were all we'd need  
        Goes to show you just how wrong two people could be
