

Baby Your Baby

[George Strait](#)

All you know it, all lovers better heed some advice
If you're bad to your baby, you'd better think twice
Love don't come easy, love ain't blind You've got to show her you love her, morning and night
Be there for her to make things right
Make her believe till there ain't a doubt in her mind Better baby your baby with a love that's strong
Hold her and tell her you'll never do wrong
Better baby your baby, 'cause if you don't
One day your baby'll be gone Don't let her get lonely, don't make her cry
Don't take her for granted, don't tell her a lie
Bring her red roses when she's blue Give her the best of what you've got to give
You'll be together as long as you live
Better baby, your baby, she'll baby you Better baby your baby with a love that's strong
Hold her and tell her you'll never do wrong
Better baby your baby, 'cause if you don't
One day your baby'll be gone Better baby your baby with a love that's strong
Hold her and tell her you'll never do wrong
Better baby your baby, 'cause if you don't
One day your baby'll be gone
