Do Me Good

Keith Moon

Got back together with my man last night
But I think I was dreaming, he didn't feel quite right
I pressed his chest under my fingertips
Beside myself I sighed and reminded of his lips
I'm confused and quizzical
Funny don'tcha know
I just wan get physical
Let me tell ya how
Do me good, I'll tell you anything you want to hear
Do me good, do me good, do me good, do me good
Do me good and all this craziness will disappear
Do me good, do me good, do me good, do me good
It's like he was designed with me in mind
He's so good from behind, he's beautifully defined
I miss him most of all when it got late
Attempt to hear him breathing or feel his shifting weight
I'm confused and quizzical
Funny don'tcha know
I just wan get physical
Let me tell ya how
Do me good, I'll tell you anything you want to hear
Do me good, do me good, do me good, do me good
Do me good and all this craziness will disappear
Do me good, do me good, do me good, do me good
