Should Know Better

Comeback Kid

Adamant, adamant, tunnel vision view
Wasn't gonna pull the plug, had to see it through
What a bright idea that wouldn't quit
Somewhat empty but I took a healthy sip
Then I tripped when it got harder to see
In over my head and now it's hanging over meI've only made things worse today
And everyone, everything's in my way
Adding insult to injury
Are you happy, are you happy now?Can I tip the scale?
Well maybe I'm just bound to fail
Adding insult to injury
Are you happy, are you happy now?Adamant, adamant, tunnel vision view
Backed up in a corner, now I'm stuck because
I should know better
Take the wrap, suck it up because
I should know betterSad to say I couldn't make the connection
A lot of build up
But it only took a second to bring this whole thing down
Backed up in a corner, now I'm stuck.Adamant, adamant, tunnel vision view
Backed up in a corner, now I'm stuck because
I should know better
Take the wrap, suck it up because
I should know better
