Find Out

Devo

I've seen 'em doing battle
I've heard 'em talking war
Still I keep on going
Though its different than beforeThey've been riding high
Up where the cold winds blow
Miles above that highway
Where the rest of us all goTo find out
You have to find out
It's good to find out
Before you open your mouthFind out
Why don't you find out
You better find out
Before you fill in the blanksGo find out what it takes
To make a boy break down and cry
Go find out his young mistake
Is a premature goodbye
(It's a privilege you can buy)Find out
Where it goes
Find out
Faster roadsFind out
it never grows
Find out
For yourselfYou never tried to find the time it takes
To work it out
It's not a waste to taste the sweat it takes
To work it out
Work!You don't need a battle
You don't need a war
You don't need any lessons
To find out what's in storeYou been riding high
You felt the cold winds blow
Now get back on the highway
Where the others have to goAnd find out
And maybe when you do
You'll even find out
You haven't got a clueUnless you find out
It's never like they say
Your gonna find out
You'll take it all the wayGo find out what it takes

To make a boy break down and cry
Go find out his young mistake
Is a premature goodbye
(It's a privilege you can buy)You never tried to find the time it takes
To work it out
It's not a waste to taste the sweat it takes
To work it outFind out
Before you open your mouth
You better find out
