

Na Na Na

Big Time Rush

Na na na na

Na na na na

Na na na na

Na na na na When you know some stupid boy's just trying to break your heart

Don't even play his game

He doesn't see how beautiful you are

Baby just walk away When you're feeling like the world is pushing on your chest

Don't let it get to you

Sometimes you gotta step back and take a breath

Find a different point of view Na na na na

Na na na na

Na na na na

When your heart's about to break

Sometimes you just gotta say

Na na na na When you need to get away from the place where you are

Sometimes you gotta hit the road, baby,

Turn the radio up, windows down in your car

Take a trip and let it roll, roll, roll, yeah Na na na na

Na na na na

Na na na na

When your heart's about to break

Sometimes you just gotta say

Na na na na When it feels like all the walls are c-c-closing in

And the noise is way too loud for you

Put your headphones on and get lost in a song

Gotta find you a different crew

C'mon, c'mon Yeah, from the top, here we go, c'mon Na na na na

Na na na na

Na na na na

When your heart's about to break

Sometimes you just gotta say

Na na na na Na na na na

When you're feeling like the world is pushing on your chest

Don't let it get to you

Sometimes you gotta step back and take a breath

Na na na na
