## Kip Moore

I know the lights are out, I know it's getting late  
But you're still young and we're wide awake  
I've never seen a sky this damn bright  
So don't go home, it just ain't right

I got a good idea, I got a wild head  
There's a little spot and we could meet you there  
Take the only road straight outta town  
Until you see the fire, baby don't slow down

'Cause we'll be up all night  
Keeping up the moon  
I just wanna dance, baby dance with you  
We gonna scream and shout until sunrise  
We won't close it down  
We'll be up all night

Baby, grab some beers and we'll grab guitars  
Tell all your friends and we'll ride the stars  
We'll gas the fire, try to make it last  
And we'll sing it up and you can shake your a\*\*

And we'll be up all night  
Keeping up the moon  
I just wanna dance, baby dance with you  
We gonna scream and shout until sunrise  
We won't close it down  
We'll be up all night  
Alright

We'll be up all night  
Gonna feel so free  
Only got one ride, don't need no sleep  
So baby, dance my way  
And I'll pass the wine  
Wanna kiss your face  
And stay up all night

We'll be up all night  
Keeping up the moon

I just wanna dance, baby dance with you  
We gonna scream and shout until sunrise  
We won't close it down  
We'll be up all night

Yeah  
Up all night
