

Icehouse

TrÃ¶jan

This is icehouse
I've seen them, I've seen the danger
I've seen some things
I'll remember if I live forever. CHORUS:
I need dream killers
I need your pictures
I don't need heroes
I need opinions
I need religion
I don't need heroes I'll use the trick
It hurts but I'm thinking clearly.
You bite with sound

Recorded speech is in the throat of your God (repeat chorus) Don't break my heart (repeat chorus) Wrong place,
wrong time.

The American dream's sure to save me.
One more mistake,
So this is the art of survival. (repeat chorus)
