Sphinx

Toyah

Eyes glow
Vestal virgins laugh
In the swirling smoke
As the pyramid explodesI poke down the Nile
I see the Sphinx smile
She knows who I am
As she grabs me by the handWell I sat at my trial
And the pharaoh smiled
Said he knows what I amI'm the curse, I'm the birth
I'm the reaper and the plague
And I want you little man
The Sphinx smiles and spreads her wings
The pharaoh shouts his curse of kings
Golden spheres evolve around him
And I float away on a freezing windI scream and shout
Turn myself to run
And the worlds disappearI'm in a maze that sways
I've forgotten what the day is
And my body shakes with fearI must try to escape
Before the Minotaur awakes
Now my body feels like leadI try to open doors
But I've led me there before
This for something that I said
The Sphinx smiles and spreads her wings
The pharaoh shouts his curse of kings
Golden spheres evolve around him
And I float away on a freezing windSphinx - ooh
Sphinx - oohThe Sphinx smiles and spreads her wings
The pharaoh shouts his curse of kings
Golden spheres evolve around him
And I float away on a freezing wind
The Sphinx smiles and spreads her wings
The pharaoh shouts his curse of kings
Golden spheres evolve around him
And I float away on a freezing wind...
