They Don't Give A Fuck

Advisory - the following lyrics contain explicit language:

Politics are wastin' time, it's always the same old lie
Tomorrow will be better than today, all our troubles will soon go away
Oppression everywhere
Bullets in the air
But now it's up to you
They don't give a fuck about me and you!
They don't give a fuck about me and you!
But now we gonna do what we wanna do!!
Korea and Vietnam, Chile and Iran
United Kingdom and Germoney, and the goddamn' fuckin' USA
Oppression everywhere
Bullets in the air
But now it's up to you
They don't give a fuck about me and you!
They don't give a fuck about me and you!
But now we gonna do what we wanna do!!
Nobody needs a war
So what's the A-Bomb for
Their peace is just a farce
They can stick it up their arse
Oppression everywhere
Bullets in the air
But now it's up to you
They don't give a fuck about me and you!
They don't give a fuck about me and you!
But now we gonna do what we wanna do!!
