# Bulletproof

## Reckless Kelly

Nobody ever makes it last anymore
They're always looking for the easy way out
These days love is a revolving door
Cast aside at the first sign of doubt
I never thought this could happen to us
I thought we had something to trust
And though we loved like we had nothing to lose
I thought you and me were supposed to be bulletproof
You were my anchor and I was your rock
I needed answers and you held the key
I made you listen and you made me talk
You were the only one that mattered to me
I never thought this could happen to us
I thought we had something to trust
And though we loved like we had nothing to lose
I thought you and me were supposed to be bulletproof
You were the best thing that I ever found
They all said we made a pretty good team
I set em' up and then you knocked em' down
One day it all just came apart at the seams
I never thought this could happen to us
I thought we had something to trust
And though we loved like we had nothing to lose
I thought you and me were supposed to be
Yeah, you and me were supposed to be
I thought you and me were supposed to be bulletproof
